INTRODUCTION
The University is making available a plan of blanket accident and sickness insurance (hereinafter called “plan” or “Plan”) underwritten by Nationwide Life Insurance Company and administered by Student Assurance Services, Inc. This brochure provides a general summary of the insurance coverage; the Schedule of Benefits is not all inclusive of eligible benefits payable under this plan. Keep this brochure as no individual policy will be issued. This summary is not a contract; the Master Policy is issued to the University and available upon request. The Master Policy contains the contract provisions and shall prevail in the event of any conflict between this brochure and the Master Policy.

The insurance plan provides continuous protection, 24 hours a day, anywhere in the world during the period of coverage for which the proper premium has been paid. Coverage is not automatically renewed. Students must re-enroll when coverage terminates to maintain continuous coverage.

SAS Plan Number:
15-61-0107-200-644-5 - Domestic Students
15-61-0111-200-644-5 - International Students
STUDENT ELIGIBILITY

All domestic undergraduate students taking 5 or more credit hours and graduate students pursuing a graduate degree are eligible to enroll in the insurance plan on a voluntary basis. Students taking computer online courses are eligible provided the student is taking 5 or more credit hours and is progressing to a degree offered by the University.

Domestic students who wish to enroll in the insurance plan must enroll by the enrollment period deadline date **September 15, 2015**. Completed enrollment forms and proper premium payments postmarked by the U.S. postal service after this date will only be accepted for students who qualify for late enrollment. New students must enroll no later than 30 days from the first day of the term of coverage enrolling.

All International students and scholars holding an F-1 or J-1 visa are eligible to enroll in the plan. International students are enrolled in the plan at registration, unless proof of other comparable insurance coverage is submitted and approved for waiver by the Office of International Programs. Scholars need to contact the Office of International Programs.

The following students are not eligible to enroll in the insurance plan: students enrolled exclusively in online courses or whose enrollment consists entirely of short-term courses (except as stated above); students taking distance learning, home study, correspondence, television courses, or courses taken for audit. The online restriction does not apply to students who are completing their degree requirements while engaged in practical training.

Students must attend classes within the first 31 days beginning with the first day for which coverage is effective. Any student withdrawing from the University during the first 31 days after the effective date of coverage shall not be covered under the insurance plan. A full refund of premium will be made, minus the cost of any claim benefits paid by the Policy. Students who graduate or withdraw from the University after 31 days, whether involuntarily or voluntarily, will remain covered under the Policy for the term purchased and no refund will be allowed.

The Plan Administrator reserves the right to determine if the student has met the eligibility requirements. If the Plan Administrator later determines the eligibility requirements have not been met, its only obligation is to refund the premium.

COVERAGE FOR DEPENDENTS

Students who enroll in the insurance plan may also enroll their eligible dependents by the enrollment period deadline date **September 15, 2015**. Enrollment forms and premium payments received after this date will only be accepted for dependents who qualify for late enrollment. Dependents must enroll when the student first enrolls in the insurance plan. New students must enroll eligible dependents no later than 30 days from the first day of the term of coverage enrolling.

TO ENROLL FOR COVERAGE

International students are automatically enrolled in the plan at registration and the premium is added to the student’s account.

Scholars and international students enrolling dependents may enroll by contacting the Office of International Programs.

PREMIUM

Payment of Premium/Due Date: All premium, charges or fees must be paid to Plan Administrator prior to the start of the term for which coverage is selected, or to the University collecting premium payments as agreed upon by the University and Plan Administrator. In no event will coverage become effective prior to the date of enrollment and before required premium is received.

 Returned or Dishonored Payment: If a check or credit card payment for the premium is dishonored for insufficient funds, a reasonable service charge may be charged to the insured which will not exceed the maximum specified under state law. A dishonored check or credit card payment shall be considered a failure to pay premium and coverage shall not take effect.

 Premium Refund Policy: A prorated refund, less any claims paid, will be issued only for the following situations below. Any refund provided may be subject to a $25 administration fee.

• Students who withdraw from the University within the first 31 days following their effective date of coverage; or

The insured must notify the Plan Administrator immediately when eligible for late enrollment. Coverage is effective upon enrollment and receipt of premium.

Involuntary Loss of Coverage: If the insured chose not to enroll in the insurance plan when first eligible as a result of coverage under another insurance plan, the insured may enroll if the Plan Administrator is notified in writing and the enrollment and premium are received no later than 31 days after the involuntary loss of coverage under the other insurance plan. This does not apply if the other insurance plan was voluntarily terminated.

Step-Child: Coverage for a Step-Child is effective on the date the Insured marries the child’s parent. However, the Insured must notify Us in writing within thirty-one (31) days of the marriage and pay the required additional Premium, if any, in order to have Coverage for the child continue beyond such thirty-one (31) day period.

Foster Child: Coverage for a Foster Child is effective upon the date of placement with the Covered Person. Coverage for such child will be for Sickness and Injury, including medically diagnosed congenital defects, birth abnormalities, prematurity and nursery care. Coverage will continue unless the placement is disrupted and the child is removed from placement. However, the Insured must notify Us in writing within thirty-one (31) days of such placement and pay the required additional Premium, if any, in order to have Coverage for the Foster Child continue beyond such thirty-one (31) day period.

Coverage for such child will be for Sickness and Injury, including medically diagnosed congenital defects, birth abnormalities, prematurity and nursery care. Coverage will continue unless the placement is disrupted prior to legal adoption and the child is removed from placement. However, the Insured must notify Us in writing within thirty-one (31) days of such adoption and pay the required additional Premium, if any, in order to have Coverage for the adopted child continue beyond such thirty-one (31) day period. Coverage is provided for delivery and obstetrical expenses at birth, for the birth mother of a child adopted within ninety (90) days of birth of such child by the Covered Person; subject to the same limitations contained in this Policy applicable to the Covered Person.

**EFFECTIVE AND TERMINATION DATES OF COVERAGE**

Coverage becomes effective on the later of the following dates:

- The Master Policy effective date August 01, 2015, at 12:01 a.m.,
- The first day of the term for which the proper premium is paid;
- 12:01 a.m. following the date the proper premium is received by the University or Plan Administrator.

Dependent coverage under the Policy becomes effective on the same date as the insured student for which the proper dependent premium payment is received. Coverage will not be effective prior to that of the insured student.

Coverage will terminate on the earliest of the following dates:

- the Master Policy termination date July 31, 2016, at 11:59 p.m.;
- the last day of the term of coverage for which the proper premium is paid;
- the date a foreign national permanently departs for their home country;
- the date the insured enters into full time active military service;
- the date the premium for insurance coverage is due and unpaid.

Dependent coverage will not extend beyond the student’s termination date of coverage.

Coverage will continue for a handicapped dependent child who is not capable of self-support due to a mental retardation or physical handicap if:

1. The dependent child became incapacitated prior to the age at which coverage would otherwise have terminated;
2. The dependent child is primarily dependent on the student for support and maintenance;
3. Proof of such incapacity and dependence is given to the Plan Administrator by the attending physician within 31 days of the date the dependent child reaches the limiting age. Proof must also be given annually thereafter. Failure to provide such proof within 31 days of the request will result in the termination of the dependent child’s coverage under the Policy.

Coverage will continue as long as the dependent child continues to satisfy the requirements above, unless coverage is otherwise terminated in accordance with the terms of the Policy.

**IMPORTANT:** Coverage is not automatically renewed. Students are responsible for keeping the Policy in force.

**Extension of Benefits**

The coverage provided under the Policy ceases on the insured’s termination date, except for the following situation:

- The insured is hospital confined on the termination date from a covered injury or sickness for which benefits were paid before the termination date. The covered expenses for the injury or sickness will continue to be paid for a period of 90 days or until date of discharge, whichever is earlier.

**Note:** After the extension of benefits provision has been exhausted, all benefits cease to exist and under no circumstances will further benefits be paid.

**Reinstatement of Reservist after release from Active Duty**

If the insured’s insurance ends due to the insured being called or ordered to active duty, such insurance will be reinstated without any waiting period when the insured returns to school and satisfies the eligibility requirements defined by the University.

EXPLANATION OF BENEFITS

BENEFIT PAYMENTS
Benefits are payable only for covered expenses incurred during the policy period. No benefits are payable for covered expenses incurred prior to or after the insured’s effective or termination dates respectively. Covered expenses are payable at the in-network insurer percentage for the preferred allowance or the out-of-network insurer percentage for the provider reasonable and customary charges. The Policy may contain benefit-level maximums for a covered expense, as outlined in the Schedule of Benefits. The insured is responsible for the deductible, copay, coinsurance and the balance of expenses not paid by the Policy.

PRECERTIFICATION AND REFERRALS
This insurance plan does not require pre-certification or referrals for emergency services, to obtain access to providers specializing in obstetrics or gynecology, or any covered service prior to the date the service is performed. Covered services will be evaluated for benefits when the claim is submitted to the Plan Administrator for payment. A verbal explanation of benefits does not guarantee payment of claims.

PAYMENT DEFINITIONS
Covered services payable under the Policy, are subject to the following payment provisions as described below.

Coinsurance is the insured’s share of the costs, calculated as a percentage, after the Policy pays the insurer percentage.

Copay is the fixed dollar amount the insured must pay for specified covered expenses, each time the covered service is received. The prescription drug copay is not paid at the pharmacy, but rather is subtracted from benefits when a claim is submitted by the insured for payment.

Deductible is the amount subtracted from covered expenses before benefits are considered. Each insured person or family must satisfy the deductible. A deductible may be required for each injury or sickness, once per policy period, or each time the covered service is received.

Insured Percent is that part of the covered charge that is payable by the Policy, after the deductible and/or copay has been paid, and subject to the policy year maximum or maximum benefit, as applicable.

Out-of-Pocket Maximum is the amount the insured must satisfy before covered expenses are payable at 100% of the in-network preferred allowance for remainder of policy period. The out-of-pocket maximum does not apply to out-of-network or non-covered medical expenses, and elective services.

MEDICAL NECESSITY and MEDICAL APPROPRIATENESS DETERMINATION
The Company reserves the right to review claims and establish standards and criteria to determine if a covered service is medically necessary and/or medically appropriate. Benefits will be denied by the Company for covered services that are not medically necessary and/or medically appropriate. In the event of such a denial, the insured will be liable for the entire amount billed by that provider. The insured has the right to appeal any adverse decision as outlined in the Appeals and Complaint section of this brochure.

Covered Services are medically necessary if they are:
- Required to meet the health care needs of the insured; and
- Consistent (in scope, duration, intensity and frequency of treatment) with current scientifically based guidelines of national medical or research organizations or governmental agencies; and
- Consistent with the diagnosis of the condition; and
- Required for reasons other than the comfort or convenience of the insured or provider; and
- Of demonstrated medical value and medical effectiveness.

A covered service is medically appropriate if it is rendered in the most cost-effective manner and type of setting appropriate for the care and treatment of the condition. When specifically applied to hospital confinement, it means that the diagnosis or treatment of symptoms or a condition cannot be safely provided on an outpatient basis.
EXPLANATION OF BENEFITS cont.

A treatment, drug, device, procedure, supply or service shall not be considered as Medically Necessary if it:
- is experimental/investigational or for research purposes;
- is provided solely for educational purposes or the convenience of the patient, the patient’s family, physician, hospital or any other physician; exceeds in scope, duration or intensity that level of care that is needed to provide safe, adequate and appropriate diagnosis or treatment and where ongoing treatment is merely for maintenance or preventive care;
- could have been omitted without adversely affecting the patient’s condition or the quality of medical care;
- involves treatment with or the use of a medical device, drug or substance not formally approved by the U.S. Food and Drug Administration (FDA). If the prescribed drug is recognized as safe and effective for the treatment of a sickness or injury by one or more of the Standard Medical Reference Compendia or in the medical literature, even if the prescribed drug has not been approved by the FDA for the treatment of that specific sickness or injury, coverage will be provided, subject to the exclusions and limitations of the Policy;
- can be safely provided to the patient on a more cost-effective basis such as outpatient, by a different medical professional, or pursuant to a more conservative form of treatment.

If the insured has other insurance and pre-certification is required, this coverage will consider the services authorized by the primary carrier as medically necessary and process the insured’s claim accordingly unless otherwise excluded under the Policy. If the insured has any questions or concerns about whether a particular service, supply, or treatment is medically necessary or medically appropriate, contact the Plan Administrator.
GENERAL EXCLUSIONS AND LIMITATIONS

Unless specifically included, no Benefits will be paid for: a) loss or expense caused by, contributed to, or resulting from; b) treatment, services, or supplies for, at, or related to:

1. Services for injuries or diseases related to Your employment to the extent You are covered or are required to be covered by a worker’s compensation law. If You enter into a settlement giving up Your right to recover past or future medical benefits under a worker’s compensation law, the Company will not pay past or future medical benefits that are the subject of or related to that settlement. In addition, if You are covered by a worker’s compensation program which limits benefits when other than specified providers are used and You receive services from a non-specified provider not specified by the program, the Company will not pay balances of charges from such non-specified providers after Your benefits under the program are exhausted.

2. Services in which duplicate benefits are available under federal, state or local laws, regulations or programs. Examples of such programs are: Medicare; TRICARE; services in any veteran’s facility when the services are eligible for coverage by the government. This contract will provide coverage on a primary or secondary basis as required by state or federal law. This exclusion does not apply to Medicaid. This exclusion applies whether or not You choose to waive Your rights to these services except for those services that would be eligible for benefits under Medicare Part D prescription drug coverage. Such benefits shall only be excluded if You are enrolled in Part D.
